

Rota Val - Appointment of Ian Watson

Leading Chippenham-based valve manufacturer, Rota Val Ltd., has announced the appointment of Ian Watson as Sales Engineer to join the company's expanding sales team.

Ian has wide ranging experience in engineering, quality systems and materials including plastics and non-ferrous marine grade metals. After taking an HND in general/mechanical engineering, Ian worked in the piping fabrication industry for twelve years where he undertook the project management of high value contracts. At Rota Val, he has already established himself as a valuable member of the team with responsibility for liaison between customers and the design, production and quality teams.

Well known as a leader of the Aldbourne Cub pack, Ian has dedicated himself to youth work for the last 15 years and was a member of the UK staff at the World Jamboree held in Thailand in 2003. He is 41 years old and is looking forward to his marriage in November.
